Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/19/2004 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert Hubbard (Reg. #22438) on March 23, 2004.

The application has been amended as follows:

Claim 2 has been canceled.

Claim 1:

Line 10, the phrase --wherein said first component comprises one or more flexible limb elements having respective free ends having means for attachment to said second component -- has been inserted after "second position".

Claim 3:

Line 1, "2" has been changed to --1--.

Claim 11:

Line 7, the phrase --wherein said first component comprises one or more flexible limb elements having respective free ends having means for attachment to said second component -- has been inserted after "second position".

Claim 12:

Line 1, --a first and second components," has been inserted after "comprising".

Line 11, the phrase --wherein said first component comprises one or more flexible limb elements having respective free ends having means for attachment to said second component -- has been inserted after "second positions".

The changes serve to clearly point out the feature distinguish from the prior art applied including the flexible limb elements having free ends which have means for attachment to the second component, to correct the dependency of the claim which depends on the canceled claim 2, to provide antecedent basis for the "first and second components" (in claim 12 lines 6,7), and to put the case in condition for allowance.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance the claims is that the prior art of record does not teach the flexible limb elements having respective free ends having means for attachment to the second component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
